

International Journal on Recent Researches In Science, Engineering & Technology

A Journal Established in early 2000 as National journal and upgraded to International journal in 2013 and is in existence for the last 10 years. It is run by Retired Professors from NIT, Trichy.

It is an absolutely free (No processing charges, No publishing charges etc) Journal Indexed in DIIF and SJIF.

Research Paper

Available online at: www.jrrset.com

**Chief Editors 1 : Dr. M.Narayana Rao, Ph.D., Rtd. Professor, NIT,
Trichy.**

(Engg.&Technology division)

2 : Dr. N.Sandhyarani, Ph.D., Professor,

Chennai based Engg.College, (Science division)

ISSN (Print) : 2347-6729

ISSN (Online) : 2348-3105

Volume 2, Issue 10,

October 2014

5th Generation Networks: Behind and Future Potentials in Information Transparencies and Big Data Management

Prantosh Kumar Paul, R Senthamarai and Kalyan Kumar

Abstract - Network is one of the important name in the field of Network and Communication Technology. There are generation of networks and development officially since from 1 G Network which is introduced in the beginning of 1980's and completed in the late of 1990's. Then the second generation networks or 2 G Systems introduced with support of voice transmission and with digital signal and with 64 KBPS. There are no official details about 5 Generation Networks; however this is actually deals with service and benefit beyond 4 G with healthy data speed and network transparency. This is essential for high speed connectivity is the common denominator as we look ahead to fifth generation of 5 Generation Mobile Networks. This paper is talks about Network and Networking Technologies; its need and importance and future potentials for healthy information system building.
