

## International Journal on Recent Researches In Science, Engineering & Technology

A Journal Established in early 2000 as National journal and upgraded to International journal in 2013 and is in existence for the last 10 years. It is run by Retired Professors from NIT, Trichy.

It is an absolutely free (No processing charges, No publishing charges etc) Journal Indexed in DIIF and SJIF.

Research Paper

Available online at: [www.ijrrset.com](http://www.ijrrset.com)

Chief Editors 1 : Dr. M.Narayana Rao, Ph.D., Rtd. Professor, NIT, Trichy.

(Engg.&Technology division)

2 : Dr. N.Sandyarani, Ph.D., Professor,

Chennai based Engg.College, (Science division)

ISSN (Print) : 2347-6729

ISSN (Online) : 2348-3105

Volume 2, Issue 6,  
June 2014

DIIF IF :1.46

SJIF IF: 1.329

### A Framework for Coordination of MAS for Specific Agent

Dr. P. Sengottuvelan

**Abstract** - It has been observed from literature that multi-Agent Systems ( MAS ) have become one of the most rapidly growing areas of interest for distributed computing . A multi-Agent system is a concurrent system based on the notion of autonomous, reactive and internally-motivated agents in a decentralized environment. The increasing interest in MAS research is due to the significant advantages inherent in such systems , including their ability to solve problems that may be too large for a centralized single agent , to provide enhanced speed and reliability, and to tolerate uncertain data and knowledge . Based on this premise, a system has been proposed and a prototype developed in support of a computing environment to facilitate cooperation and concurrency of activities among disciplines forming a "Task Monitoring Team " engaged in the task of doing project development .
