## **Blog as a Tool for e - learning**

**Antony Arnold**

Abstract - It has been observed from literature, blog system for e-learning . In this study, block was used as a tools to encourage students reflective learning and their curiosity level. Findings suggested that blog is effective for students to document their learning Share experience and knowledge, and to have direct interaction .we proposed the use of blog could lead to a technological enhanced support for the faculty instructional strategy that serves as an informative model for other web-based educational online courses. The technology behind blog facilities evaluation of content and individuals expectation. Initial experiments with our E-Learning blog indicate that blogs can be effectively used as an effective tool for E- Learning
