

International Journal on Recent Researches In Science, Engineering & Technology

(Division of Computer Science and Engineering)

A Journal Established in early 2000 as National journal and upgraded to International journal in 2013 and is in existence for the last 10 years. It is run by Retired Professors from NIT, Trichy.

It is an absolutely free (No processing charges, No publishing charges etc) Journal Indexed in JIR, DIIF and SJIF.

Research Paper

A Framework for Mining n – partite subgroups

R . V . Nataraj and S.M. Krishna

Abstract - Literature review revealed, a novel methodology for mining non-induced maximal n -partite sub graphs from large graphs using closed patterns. Our methodologies constructs two special transactional databases from bipartite pairs and discovers n -partite sub graphs from these databases using closed pattern concept. We have introduced several theorems which prove correctness and completeness of our methodology.
