

International Journal on Recent Researches In Science, Engineering & Technology

(Division of Computer Science & Engineering)

A Journal Established in early 2000 as National journal and upgraded to International journal in 2013 and is in existence for the last 10 years. It is run by Retired Professors from NIT, Trichy. It is an absolutely free (No processing charges, No publishing charges etc) Journal Indexed in JIR, DIIF and SJIF.

Contextual Recommender For Noise Level

N.NandhaKumar and S.Kavitha

Abstract

If the learner is in a cafeteria, the noise level associated to this location might have an impact on the level of concentration and likelihood of interruption. Therefore, a contextual recommender would in such a context suggest learning activities to assess the knowledge on previously learned topics, e.g. through simple questionnaires that can resume easily at a later point in time. A second example considers proximity between learners to support collaborative learning.
