

International Journal on Recent Researches In Science, Engineering & Technology

(Division of Mechanical Engineering)

A Journal Established in early 2000 as National journal and upgraded to International journal in 2013 and is in existence for the last 10 years. It is run by Retired Professors from NIT, Trichy. It is an absolutely free (No processing charges, No publishing charges etc) Journal Indexed in JIR, DIIF and SJIF.

Case Study On Critical Estimation Of Efficiency Of Cooling Towers And The Factors Effecting The Same

G. Davood and R. Krishna

Abstract

In this paper the authors made a case study on critical estimation of efficiency of cooling towers and the factors effects the same. The authors developed a new technique combining experimental and computational modelling. They developed a logic tree to provide guidance on how to balance problems within the cooling towers and identity suitable maintenance plan.
